In a California newspaper I recently read this account of American ingenuity. A Southern California nightclub operator, bound hand and foot by robbers, dialed the local information number—with his nose! Said he tried "0" for Operator but couldn't quite make it. "Information" sent police in a hurry to the man who had found help fast with Direct Nose Dialing.

From all of us here at Pacific Telephone—best wishes to all of you for a fine Thanksgiving Day.

Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles

New York, N. Y. (Special)—One of the most common afflictions is a condition known as "itching piles." It is most embarrassing for the victim during the day and especially aggravating at night.

No matter what you've used without results—here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids—without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection.

In one hemorrhoid case after another "very striking improvement" was reported and verified by a doctor's observations. This improvement was maintained in cases where a doctor's observations were continued over a period of months! Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration.

The secret is this new healing substance (Bio-Dyne®)—discovery of a world-famous research institution. This substance is now obtainable in ointment or suppository form known as Preparation H®. Ask for Preparation H Suppositories (convenient to carry if away from home) or Preparation H Ointment with special applicator. Available at all drug counters.
